We thank you for entrusting us with your most cherished day! It is our priority to create the ultimate destination wedding experience that not only reflects your personality and style but allows you to relax and celebrate with your family and friends!

OUR PURPOSE

The objective of our Planning Packages is to relieve you, the couple, of the stress involved and conserve your time. Our wedding planner will help eliminate the possibility of miscommunications and liaise with the wedding department in destination. Our planner will be able to provide answers in a more timely efficient manner. She will organize and pre-plan all details of the wedding day to help ensure that all is executed without a hitch. Our company hosts three planners Certified by WPICC (Wedding Planners Institute of Canada) available to coordinate your wedding.

With their knowledge they can guide you in making the best choices, while offering creative and inspiring ideas on décor and settings. And they have already learned how to cut out costs and help you stay within your budget.
